ABSTRACT

Every man need education. Education becomes a form of human life without load. No one creature is so new. Whatever life without the hassle of learning to solve easily. Currently improve education in describe researcher philosophical and educational ideas of Aurobindo Ghosh and Swami Vivekananda’s current perspective comparative study and found the current system Mahrisi Aurobindo Ghosh and Swami vivekananda defeats the idea of adopting a child by teaching social skills should develop. At the present time to adopt such an approach would only be the child freedom., Rights, and property and social skill to play develop work believes in....
